[Uniop Designer 6: Software](#)

SMART FACTORY

The screenshot displays the Corvina Cloud management interface. At the top, there is a navigation menu with tabs for DASHBOARD, USERS, DEVICES, APPLICATIONS, ORGANIZATIONS, STATISTICS, and SETTINGS. Below this, a sub-menu shows 'CONNECTIONS' and 'Map'. The main content area features a table with columns for Name, Groups, Description, and Status. The table lists several connections, all of which are in an 'online' state. A legend at the bottom left identifies icons for Gateway, Endpoint, Online, Offline, Connected, In use, and Busy. On the right side, there is a summary panel showing '1 - 8 of 8 gateways' and three status indicators: ONLINE 2/589, ONLINE 8/925, and ENDPOINT 2044.
